

INGENIERÍA &
INVESTIGACIÓN JOURNAL

LICENSE AGREEMENT

ISSN 0120-5609 (print), eISSN 2248-8723 (web)

Facultad de Ingeniería
Universidad Nacional de Colombia

Place and date: _____

The Authors (or the copyright holders), henceforth “Authors”, of the article entitled

henceforth “this article”, sent for publishing consideration in *Ingeniería e Investigación* journal, are in complete agreement with the following statements:

1. Responsibility for the content of this article is completely held by Authors
2. Authors are the creators of all material shown throughout this article. Otherwise, Authors have the corresponding permission for publishing such material in this article
3. This article is an unedited, unpublished, original contribution. Other published versions of this article, including other formats and / or other languages are inexistent. This article has not been sent to any other not-finished Publishing Process. This article will not be sent to any other Editorial Process before knowing the result from Editorial Process of *Ingeniería e Investigación*.
4. All included material/information from other sources are correctly reported (cited) taking into account the template of *Ingeniería e Investigación* journal. Claims about content originality of this article will be assumed directly by the Authors.
5. Authors have participated in the research that supports the information of the postulated article, as well as its writing, review and final approval.
6. The authors agree with their order of appearance in the article and confirm that there are no additional people, who meet the authorship criteria, who have not been included in the list of authors of the document.

7. Authors accept the publication date established by the Editorial Board of *Ingeniería e Investigación*. Authors also acknowledge that the eventual comments and suggestions coming from the peer review process could improve the content/contribution of this article in any extent.
8. Authors acknowledge knowing and accepting that this article will be published in *Ingeniería e Investigación* journal, using the Creative Commons 4.0 (CC- BY 4.0¹) license. In this sense, Authors are allowed to hold the copyright and publishing rights of this article without restrictions. In addition, third-parties could also redistribute any version of this article, provided that authorship of this article is attributed to the Authors as well as the right of first publication attributed to *Ingeniería e Investigación* journal.
9. Authors authorize Universidad Nacional de Colombia's journal *Ingeniería e Investigación* to publish the document in any format (printed, digital, electronic or any other). Authors also authorize *Ingeniería e Investigación* to include this article in any indices and/or search engines deemed necessary for promoting its diffusion.
10. The authors acknowledge that the submission of this article and the statements described in this license agreement are intended for publishing non-profit articles.
11. The article belongs to following category:
 - Scientific and technological research article
 - Reflection article.
 - Review article.
 - Case reports

12. The article deals with the following specialized area:
_____ (Please indicate which engineering
filed or interdisciplinary area the article deals with)

In witness thereof, the present license and authorization is signed on
the _____ day of the month of _____ in the city of _____.
