
UNIVERSIDAD NACIONAL - FACULTAD DE MEDICINA - BIBLIOTECA

BOLETIN BIBLIOGRAFICO

La Biblioteca de la Facultad de Medicina de Bogotá es una institución de carácter científico, destinada al servicio del Profesorado, de los alumnos de la Facultad, de los profesionales en general y del personal docente y alumnos de las escuelas dependientes de la Facultad de Medicina (Odontología y Farmacia).

Estará abierta todos los días no feriados y de vacaciones que establece el Reglamento de la Facultad, de 10 a 12 de la mañana, de 2½ a 6 de la tarde y de 8 a 10 de la noche. Los sábados por la tarde y noche no habrá servicio de Biblioteca.

Cuando se desee llevar un libro a domicilio, aparte de la papeleta de petición, se consignará en la Secretaría de la Facultad un depósito superior al monto del valor que tenga el libro en el mercado.

Los libros llevados a domicilio deben ser devueltos en un término máximo de diez días; pasados éstos se dispondrá del depósito para reponerlo, y el solicitante no tendrá derecho en lo sucesivo a hacer uso de este servicio de la Biblioteca.

Establécese en la Biblioteca el servicio de Canjes de las obras duplicadas. Dichos canjes deben llevar la aprobación del Director de la misma.

(Del Reglamento orgánico de la Biblioteca)

MEDICINA GENERAL

THE AMERICAN JOURNAL OF THE MEDICAL SCIENCES

Vol. CLXXXIII, N° 4.—April 1932—Estados Unidos.

King J.—The nature of the physical signs of bundle-branch block.

Salley S.—An unusual atropin effect on ventricular tachycardia.

Bellet S.—Congenital heart disease with multiple cardiac anomalies.

Samuels S.—The incidence of thrombo-angiitis obliterans in brothers.

Brown G.—Erythromelalgia and other disturbances of the extremities accompanied by vasodilatation and burning.

Pearse H.—The blood pressure in the arteries of the extremities in normal subjects and in patients with peripheral vascular disease.

Nathanson M.—Coronary disease in 100 autopsied diabetics.

Kramer D.—Diabetic gangrene.

Friedgood H.—The effect of Lugol's solution on chronic lymphatic leukemia and its bearing upon the pathogenesis of exophthalmic goiter.

Rowe A.—Food allergy in the differential diagnosis of abdominal symptoms.

Kling D.—Syphilitic arthritis with effusion.

Young C.—Aseptic purulent meningitis.

Woltman H.—Spasmodic torticollis.

Hinton W.—The clinical cycle of goiters.

Vol. CLXXXIII, No 5. May, 1923.—Estados Unidos.

Hitzrot L.—Per oral and intravenous cholecystography.

Singer H.—The pathogenesis of perigastric abscesses complicating peptic ulcer.

Nahum L.—Insulin and appetite.

Wohl M.—Metabolic changes and treatment of obesity.

Kiefer E.—The Criegar-complement fixation test.

Mufson I.—A study of the capillary pressure in nephritis and hypertension.

Cutler J.—The practical application of the blood sedimentation test in general medicine.

Kugel M.—Pathologic change occurring in polymorphonuclear leukocytes during the progress of infections.

Allen K.—Trichiniasis.

Brody W.—Primary angiofibroma of the diaphragm.

Wilson G.—Facial diplegia in polyneuritis.

Michael J.—Cerebral apoplexy.

Memhon T.—Spontaneous bilateral pneumothorax.

Turley F.—Respiratory measurements as affected by smoking and athletics.

ARCHIVES OF INTERNAL MEDICINE

Vol. 49—No 3—Chicago.

Vanzant F.—The normal range of gastric acidity from youth to old age.

Robb G.—The systemic effects of histamine in man.

Zimmerman L.—Effect of ligation of the parotid ducts on the carbohydrate tolerance of normal dogs.

Stein H.—Cholesterol-thorax in tuberculosis.

Singer H.—Carcinoma of the gastrojejunal stoma following operation of peptic ulcer.

Scott H.—The effect of prolonged distention of the stomach in dogs.

Cunningham R.—Normal, absent and pathologic tonsils in young women.

Rabinowitz A.—Psittacosis.

Willson P.—Chorea gravidarum.

Reich C.—Red cell regeneration during the menstrual cycle.

Vol. 49.—N° 4.

Jordi A.—The biologic value, iodine content, histologic structural and clinical picture of goiter.

Piersol E.—Granulopenia.

Bouslog J.—Hodgkins disease with cavity formation in the lung.

Ernstene C.—Hemangiectatic hypertrophy and congenital Phleboterectasis.

Allen G.—The man-environment unit and peptic ulcer.

Soskin S.—Effect of ligation of the parotid duct on the carbohydrate metabolism of totally depancreatized dogs.

Stich B.—Subacute bacterial endocarditis due to staphylococcus albus.

Willson P.—Chorea gravidarum.

Harkavay J.—Association of infectious asthma and arthritis from the point of view of bacterial allergy.

LE SANG—BIOLOGIE & PATHOLOGIE

6. année.—N° 3.—1932.—Paris.

Bacaloglu, C. et Enachexco, M.—Leucémie lymphatique aiguë. Streptococcie.

Meulengracht, E. et Svend Petrio.—Polycythemia rubra megalosplenica (Vaquez ou léucose myéloïde)...

Nicolau, C. T. et Proca, A.—Recherches sur les granulations toxiques des leucocytes dans la scarlatine....

Grott, J. V. et Windyga.—Recherches sur le diagnostic du diabète sucré...

Petri, S.—Revue de la littérature danoise...

6. année.—N° 4.—1932.—Paris.

Bacaloglu, C., Litarczeck et Stella Litarczeck.—Streptococcie et syndrome agranulocytaire type Schultz...

Chavallier, P.—La maladie de Biermer

Paschkis, K.—Revue de littérature autrichienne...

THE JOURNAL OF THE AMERICAN MEDICAL ASSOCIATION

Vol. 98.—Nº 7.—February 13, 1923.—Estados Unidos.

Gordon J.—Epidemiology of scarlet fever.

Taub S.—Sensitization dermatoses of non fungous nature following superficial fungous infections of the extremities.

Kline B.—Three fatal cases of *Bacillus Pyocyaneus* infection.

Corbus B.—Intradermal immunization in gonorrhea.

Hanslck P.—Iodobismutol.

Doyle J.—Narcolepsy.

Aymann D.—Bismuth subnitrate in the treatment of arteriolar hypertension.

Parmlee A.—Lipodystrophy.

Vol. 98.—Nº 8.—February 20, 1923.

Halsey R.—Etiology of heart disease.

Gardiner J.—Delayed labor caused by a shortened or short umbilical cord.

Jeck H.—Horseshoe kidney.

Lewis B.—Regurgitation renal colic.

Braasch W.—Conservation in the treatment of movable kidney.

Mahoney W.—Retrobulbar neuritis due to *Thalium* poisoning from depilatory cream.

Stein I.—Infertility and sterility.

Miller N.—The surgical treatment of urinary incontinence in the female.

Learnmoth J.—The value of neurosurgery in certain vesical conditions.

Vol. 98.—Nº 9.—February 27, 1923.

Mccarthy J.—Seminal vesicles.

Hyamans J.—Seminal vesicles and ejaculatory ducts.

Funston R.—The relation of congenital deformities of the hand to cervical ribs.

Berger S.—Immediate cecostomy and constant lavage in mercuric chloride poisoning.

Kraft E.—Melorheostosis Leri.

Nesbit N.—Acute staphylococcal infections of the kidney.

Young H.—Infections in genito-urinary tract, and complications.

Dwyer M.—Cholecystectomy.

Lane L.—Practical points in Ophthalmic practice.

Richey D.—*Pneumococcus pseudomembranous* pharyngitis.

Vol. 98.—Nº 10.—March 5, 1932.

Cecil R.—Pneumococcus Type II Pneumonia.

Soiland A.—The manegement of breast cancer.

Thron G.—Treatment of Addisons disease with an extract of suprarenal cortex.

Nelson N.—The migration, for treatment, of patients with gonorrhea or syphilis.

Joelson J.—Iopax.

Simonds J.—The pathologic basis of symtoms in nephritis.

Vol. 98.—Nº 11.—March 12, 1932.

Curtis H.—Structure of the uterine cervix.

Kennedy F.—The symtomatology of frontal and temporosphenoidal tumors.

Pearse H.—The use of vein ligation in the treatment of arterioesclerotic and diabetic gangrene.

Mcguire J.—Pathogenesis of chronic hereditary edema of extremities.

Miller E.—Suppurative pericarditis.

Allen S.—Acute pyogenic infection of the spinal pidual soace.

Cheney G.—Elliptic human erythrocytes.

Master A.—Rheumatoid arthritis and acute rheumatic faver.

Blackford L.—Dextrocardia secondary to eventration of the diaphragm.

Vol. 98.—Nº 12.—March 19, 1932.

Desjardins A.—Postgraduate and graduate teaching of radiology.

Case J.—The teaching of radiology.

Shatuckk S.—Chronic intermittent duodenal obstruction.

Orr H.—The treatment of fractures.

Glazer A.—Tularemia.

Ball R.—Calcification in tuberculosis of the suprarenal glands.

Lockwood A.—Diverticula of stomach and small intestine.

Macmillan A.—Pouches of the pharynx and esophagus.

Lockwood B.—Benign tumors of the stomach.

Lynch J.—Diverticula and diverticulitis.

Levin I.—Radiotherapy ans surgery in advenced cancer of the brest.

Vol. 98.—Nº 13.—March 26, 1932.

Elvehjam C.—The relative value of inorganic and organic iron in hemoglobin formation.

Murphy W.—The parenteral use of liver extract in pernicious anemia.

Connery J.—Parenteral use of liver extract in treatment of pernicious anemia.

Cullen G.—A graphic representation of hemoglobin and red blood cell count ratios.

Greengard J.—The value of liver extract and iron in the anemia of young infants.

Smith H.—Coronary thrombosis and myocardial infarction and hyperthrophy in young persons.

Ginsburg H.—Thallium poisoning.

Leake J.—Radium poisoning.

Schiff L.—A specific hematopoietic hormone in normal gastric juice.

Vol. 98.—Nº 14.—April 2, 1932.

Stokes J.—The complex of eczema.

Haggard H.—Antidotes for strychnine poisoning.

Lackner J.—Chorionepithelioma of uterus.

Young F.—Peripheral nerves paralyzes following the use of various serums.

Prince L.—The treatment of chronic osteomyelitis with special reference to the use of the Maggot active principle.

Miller D.—The Bear Maggot treatment of osteomyelitis.

Atkinson A.—Gastric mucin in the treatment of peptic ulcer.

Vanzant F.—The dangers of using impure mucin in the treatment of peptic ulcer.

Vol. 98.—Nº 15.—April 9, 1932.

Mcord C.—The economics of industrial medicine.

Miller J.—Intravenous treatment in experimental trichiniasis.

Hunter F.—The urologic aspects of radiosensitive tumors of the blood forming organs.

Hess J.—Dried lactic acid milks as a long continued diet for infants.

Appelbaum E.—Streptococcic meningitis.

Ravich A.—Cystitis emphysematosa.

Greenhill J.—Thymophysin and weak pituitary extract.

Walker R.—The vitamin content of medicinal cod liver oils and related products.

Barach J.—Loefer fat diet in diabetes.

Vol. 98.—Nº 16.—April 16, 1932.

Lehman A.—Tuberculosis of the bones and joints.

Lillie W.—Retrobulbar neuritis due to Thallium poisoning.

Gould H.—Age of first menstruation in mothers and daughters.

Kennedy F.—Head injuries.

Weiss S.—Lesions of the cardiac orifice of the stomach produced by vomiting.

Barrett J.—The early care of burns and the repair of their defects.

Baer J.—Appendicitis in pregnancy.

Wood J.—Ephedrine in Adam-Stokes syndrome.

Schoch S.—The patch test and the element of syring contamination in arsphenamide sensitization dermatitis.

Vol. 98.—Nº 17.—Abril 23, 1932.

Horsley J.—Certain symbiotic bacterial infections producing gangrene.

Hess A.—Recent advances in the knowledge of scurvy and the antiscorbutic vitamin.

Shay H.—Painless jaundice.

Dick G.—Antitoxic immunity resulting from administration of toxin by mouth.

Blatt M.—The control of an outbreak of scarlet fever.

Chapman E.—Acute silicosis.

Heyn L.—Hyperinsulinism.

Vol. 98.—Nº 18.—April 30, 1932.

Cole H.—Eczema or dermatitis.

Harrop G.—Addisons treated with suprarenal cortical hormone.

Crawford A.—The intracarotid treatment of meningitis.

Rowe A.—Failing of hearing in the young.

Hauser E.—The muscle factor in adolescent scoliosis.

Davis E.—The spontaneous closure of fresh urethrorectal fistula.

THE LANCET

Nº 5656.—Londres.

Horder T.—Comments on some recent excursions in Therapeutics.

May P.—Active immunisation and diphtheria.

Morland A.—The mind in tubercle.

Congdon P.—Vaccine treatment in infective arthritis.

Bagot J.—Multiple malignant growths of the buccal cavity.

Nº 5658

Treadgold H.—The relationship of heart size and body build to cardiovascular efficiency.

Hughes E.—Toxic diphtheria.

Keen J.—Treatment of the Meniere syndrome by the Zund-Burguet Electrophonoid.

Bourge G.—Aortic diastolic thrills.

Gibbens J.—The uses of casein in infant feeding.

Nº 5659.

Ryle J.—The natural history of duodenal ulcer.

Lepper E.—Lymphogranulomatosis maligna.

Woolarrd H.—An inquiry into referred pain.

Power T.—The leucopoietic value of sulphur.

Mcartan W.—Treatment of dementia praecox with uslfosin.

Nº 5660.

Trotter W.—The commemoration of great men.

Plesch J.—Aterial atony and arterioesclerosis.

Wallace J.—Diagnosis of amyloid disease by the intravenous infection of Congo red.

Penrose L.—The blood grouping of mongolian imbeciles.

Nº 5661.

Hosford J.—Some factors in the causation of hydronephrosis.

Forestier J.—The treatment of rheumatoid fever arthritis with gold salts injections.

Fletcher G.—The detection of presymptomatic tuberculosis in children.

Twort J.—Changes in the liver of mice following the ingestion of hydrocarbon oils.

Nº 5662.

Witts L.—The pathology and treatment of anemia.

Schirley Mith S.—Electrocardiographic changes during treatment of severe diabetes.

Panton P.—Staphylococcal toxin.

Gibson A.—Hemorrhagic purpura following scarlet fever.

Nº 5663.

Fullerton H.—The treatment of diabetic uremia with hypertonic glucose solutions.

Freeman J.—Specificity of the "Proteose" intradermal reactions.

Moir C.—The duration of the red lochia.

Nº 5664.

Purves J.—Disseminated sclerosis.

Broom J.—Complement fixation in Rift Valley fever.

Daubney R.—Rift valley fever.

Nº 5657.

Shaw J.—The etiology of carcinoma.

Scott A.—The bronchoscope in the diagnosis of pulmonary disease.

Ungley C.—Effect of brain idet in subacute combined degeneration of the cord.

Sargant W.—Treatment of subacute combined degeneration of the cord by massive iron dosage.

Greenwood H.—Massive enlargement of the breast.

KeKerby F.—Ulcus tropicum with a reference to its treatment by X rays.

Nº5665.

Witts L.—The pathology and treatment of anemia.

Harris W.—Treatment of clonic facial spasm.

Jeffcoate T.—The occurrence of pituitary hormones in urine in conditions unassociated with pregnancy.

Moffat W.—Operation under local anesthesia.

Nº 5666.

Edwards P.—Practical points in diagnosis and routine treatment of pulmonary tuberculosis.

Abel L.—The Pecten.

Wilkinson J.—The active principle in hogs stomach effective in pernicious anemia.

Brailsford J.—The diagnosis of diseases of the hip joint.

VVol. CCXXII.—Nº 5667.—April 9, 1932.—Inglaterra.

Pkell C.—The role of the hemolytic streptococci in infective disease.

D. Abreu F.—Intravascular occlusion of the mesenteric vessels.

Stutterheim S.—Tumors of the skin.

Bonsre G.—Amblyopia.

Vol. CCXXII.—Nº 5668.—April 16, 1932.

Symonds C.—Effects of injury upon the brain.

Ledingham C.—Vaccinia and the Paschen body.

Green R.—Malaria treated with atebirin.

Vaughan J.—Treatment by Marmite of megalocytic hyperchromic anemia, occurring in idiopathic steatorrhea.

Nº 5669.—April 23, 1932.—Londres.

Okell C.—The role of the hemolytic streptococci in infective disease.

Russ S.—Nature of the action of radium and X rays upon malignant growths.

Fisher J.—A case of pseudo-mirror writing.

Manso P.—The therapeutic effects of plasmoquine in pregnancy.

Nº 5670.—April 30, 1932.—Londres.

Hastings S.—Acute mastoid disease.

Biggam A.—Heroin addiction in Egypt.

Krestin D.—Spontaneous lactation associated with enlargement of the pituitary.

Morison A.—Speech and intelligence.

THE MEDICAL CLINICS OF NORTH AMERICA

Vol. 15.—Nº 5.—March 1932.—Estados Unidos de N. América.

Mosenthal C.—The clinical aspects of Brights disease.

Bass M.—Hemoglobinuria in childhood.

Friedman E.—Clinical and pathological considerations in epidemic poliomyelitis.

Bulloe J.—Pulmonary edema occurring in the course of lobar pneumonia treated with intravenous, hypertonic, fifty percent glucose solution and insulin.

Id.—Two cases of pneumococcus pneumonia with concurrent paratyphoid fever.

Held I.—Pyloric and duodenal stenosis.

Pugh W.—Polycystic kidneys.

Scarff E.—A case of tumor of the brain.

Klein S.—A case of catatonic dementia.

Scarff E.—A case of diagnosis.

Klein S.—A case for diagnosis.

Mittelman B.—A case of autonomic imbalance.

Sherwood W.—A case of progressive muscular atrophy.

Joughin J.—A case of Charcot-Marie-tooth type of neuritic atrophy.

Impastato D.—A case of spongioblastoma multiforme.

Mittelman B.—A case of Graves disease with neurotic character.

Scarff E.—A case of Von Recklinghausens disease.

Connery J.—Parenteral liver therapy in pernicious anemia.

Vermyle V.—Clinical aspects of rheumatic fever in childhood.

Kugelmass I.—The early treatment of intracranial hemorrhage in the newborn.

Fiske S.—Ptosis of the hepatic flexure.

Goldbloom A.—The clinical significance of the deep Q wave Lead

III.

Richards D.—Chronic familial edema, affecting all extremities, a variant of Milroy's disease.

Nemt G.—Some clinical aspects of radiology of the heart.

ARCHIVOS DE MEDICINA Y CIRUGIA Y ESPECIALIDADES

Tomo: XXXV.—Nº 566.—1932.—Madrid.—España.

Guija Mirales, E.—Estudio medicolegal de la muerte por precipitación.

Jimneo Vidal, F.—Un ensayo sobre evolución histórica y estado actual del tratamiento de las fracturas.

JOURNAL D'UROLOGIE

Tome: XXXIII.—N° 2.—1932.—Paris.

Bazy, P.—Un peu d'histoire...

Martin, J.—Hydronéphrose intrarénale et ectasie des calices sans distension du bassin...

Valverde, B.—A propos de la syphilis vésicale...

Rafin.—Anurie calculuse chez une malade antérieurement néphrectomisée...

Diamantis, A.—Sur un cas de caverne tuberculeuse primitive (?) de la prostate...

Marion, G.—Des douleurs après la cystostomie...

CIENCIAS MEDICAS FUNDAMENTALES E INVESTIGACION MEDICA

BULLETIN DE LA SOCIETE DE CHIMIE BIOLOGIQUE

Tome: XIV.—Nº 2.—1932.—Paris.

Bridel et Bourdoul.—Sur l'évolution des glucides au cours de la formation de la graine de deux variétés de Pois...

Bearts et Delvaux.—Sur le dosage des amides dans les produits sucrés...

Blanchard et Simmonnet.—Iode total et iode thyroïdien de la thyroïde du Cheval...

Canals, E. et Cabanes, E.—A propos des essais colorimétriques...

Lafon, M.—Sur l'origine possible de l'acétylméthylcarbonil dans la dégradation du saccharose par le *Bacillus subtilis*...

Dodel, P. et Febvre, P.—Éléments minéraux du sérum sanguin et survies d'organes isolés de *Vipera Aspis*...

Bougault et Cattelain.—Sur l'élimination de l'ion phosphorique à l'état de phosphate triplombique dans le dosage du sodium par la méthode acéto-uranimagnésienne...

Giroud et Bulliard.—Sur une réaction des substances à fonction sulfhydryle...

Berthelot, A.—Sur les régulateurs de la réaction des cultures microbiennes...

Berthelot et Amoureux.—Remarques sur l'emploi de sels d'acides gras comme régulateurs de la réaction des cultures microbiennes...

BULLETIN DE LA SOCIETE CHIMIQUE DE FRANCE.

Nº 2-bis.—1932.—Paris.

Table des auteurs des tomes XLIX et L.

THE JOURNAL OF LABORATORY AND CLINICAL MEDICINE

Vol. 17.—Nº 6.—Baltimore.

Gilbert R.—The broader aspects of routine cultural examinations.

Meyer K.—Use of animals in routine diagnostic work.

Soule M.—Anaerobic technic.

Nicholls E.—Technic for the isolation of streptococci.

Famulener W.—Preparation of vaccines.

Keilty R.—Vaccines in clinical medicine.

Shaw F.—Examination for pathogenic fungi.

Norton J.—Bacteriology of pus.

Stainsby W.—Bacteriologic examination of blood and spinal fluid.

Noble W.—The bacteriology of the nose and throat.

Lyon B.—The bacteriology of bile.

Plumer N.—Laboratory methods in the treatment of pneumonia.

Vol. 17. N° 7.

Pinner M.—Sputum examination in pulmonary tuberculosis.

Havens L.—The isolation and identification of pathogenic bacteria in feces.

Faust E.—Examination and identification of protozoa.

Lynck K.—Intestinal protozoa in clinical medicine.

D. Herelle F.—Bacterial mutations.

Larkum N.—Bacteriophage in clinical medicine.

Cowie D.—Observations on bacteriophage.

ANNALES DE L'INSTITUT PASTEUR

Tome: XLVIII.—N° 2.—1932.—Paris.

Gengou, O.—Contribution à l'étude des antigènes et des anticorps staphylococciques...

Sanarelli et Alesandrisni.—Etudes sur l'ultravirus...

Goldie, H.—Culture des microbes anaérobies à l'aide de produits leucocytaires et bactériens...

Lecomte, P.—Recherches sur la température critique du sérum...

Lagrange, E.—Etudes sur la peste aviaire d'Egypte...

Tome: XLVIII.—N° 3.—1932.—Paris.

Winogradsky, S.—Etudes sur la microbiologie du sol...

Babiet et Marneffe.—Un cas de rage produit par un virus rabique desrués à virulence renforcée, observe à Hanoi...

Schoen, R.—Le rhumatisme infectieux spontané de la souris provoqué par le *Streptobacillus moniliformis*...

Okischio, M.—De l'antivirus pneumococcique et de son action sur la virulence du pneumococcique...

Denys, P.—Essai de classification, selon leur action sur les types S et R, des bactériophages actifs pour le bacille de Hiss...

Dubois et Sollier.—Le sero-diagnostic de Wriigh chez la brebis atteinte de mélitococcie dans la période qui suit l'avortement...

Jacotot, H.—Etudes sur la peste bovine...

Jacques Trullat.—Recherches sur la structure de la gélatine...

ANNALES D'ANATOMIE PATHOLOGIQUE ET DE ANATOMIE NORMALE

Tome: IX.—N° 2.—1932.—Paris.

Henschen, F.—L'endovasculite proliférante thrombopoïétique dans la lésion vasculaire locale...

Moiroud et Cottalorda.—Tumeur osseuse de structure thyroïdienne avec intégrité apparente du corps thyroïde...

Pallos, C.—Trois cas de disjonction symphysaire traumatique du bassin...

Tome: IX.—Nº 3.—1932.—Paris.

Retterer, Ed.—Structure de deux greffons testiculaires après une survie de six ans...

Rossier, Jean.—Etude sur l'état de la moelle osseuse dans la cirrhose hépatique...

Huguenin, R., Nemours Auguste et Albot, G.—Les hépatiques et les cirrhoses expérimentales au bioxyde thorium...

Sicard, André.—La disposition des radicules dans la racine du trijumeau...

BULLETIN GENERALE DE THERAPEUTIQUE

Tome: 183.—Nº 1.—1932.—Paris.

Rathery, F.—Le traitement insulinique du diabète...

Société de thérapeutique.—Séance du 13 janvier 1931.

REVISTA DE INFORMACION TERAPEUTICA

Año: XIV.—Nº 5.—1932.—Alemania.

Lesser, F.—El tratamiento moderno de la sífilis...

Molas, M. A.—Contribución al estudio de la narcosis rectal por la Avertina...

Kraft, R.—Tratamiento quirúrgico de los accidentes recientes...

Lohr, W.—Profilaxis del edema gaseoso por el suero antianerobio.

Auerh, A.—De la terapéutica de los dolores...

ARCHIVES DE BIOLOGIE

Tome: XLIII.—Fas: I.—1932.—Paris.

Vialli, M.—L'organo linfomielloide mielencefalico dei Ganoidi...

Desaive, P.—Recherches sur l'évolution du mésoblaste céphalique préotique de "*Scyllium canicula*"...

THE JOURNAL OF EXPERIMENTAL MEDICINE

Voll. 55.—Nº 4.—April, 1932.—Estados Unidos.

Johnson C.—Influence of ligation of pancreatic ducts of dogs upon setum analyse concentration.

Ward H.—A examination of the mechanism on pneumococcus immunity by means of bactericidal measurements.

Ward H.—Id. Id.

Cooper G.—The further separation of types among the pneumococci hitherto included in group IV and the development of therapeutic antisera for these types.

Heidelberger M.—Quantitative studies on the precipitin reactions.

Nigg C.—Studies on the cultivation of the typhus fever rickettsia in the petesence of live tissue.

Howes E.—The age factor in the velocity of the growth of fibroblasts in the helling wound.

Scultz M.—Reaction of rabbits to streptococci.

Lichty J.—Renal thresholds for hemoglobin in dogs.

Newmann W.—Hemoglobin injections and conservation of pigment by kidney, liver and spleen.

Bogniard R.—The iron content of blood fee tissues and viscera.

Eagle H.—Studies in the serology of syphilis.

Vol. 55.—Nº 5.—Mayo, 1932.—Estados Unidos.

Barnett C.—The maintenance of a normal plasma protein concentration in spite of repeated protein loss by bleeding.

Jaffe H.—The effects of parathormone and ammonium chloride on the bones oy rabbits.

Duran F.—The effect of antitesticular serum on the enhancement value of testicle extract.

Parker R.—The races that constitute the common grupo of fibroblasts.

Kneeland K.—Studies on the common cold.

Mcewen M.—Cytologic studies on rheumatic fever.

Goebel W.—Qhemo-immunological studies on conjugates carbohydrate proteins.

Landsteiner K.—On the serological specificity of peptides.

Julianelle I.—Reactions of rabbits to intracutaneous injections of pneumococci and their products.

Olitsky P.—Corneal reactions to Bacterium granulosus and other microorganisms.

Wadsworth A.—The purification and concentration of diphtheria toxoid.

BULLETIN DE L'ASSOCIATION FRANCAISE POUR L'ETUDE DU CANCER

25. année.—Nº 2.—1932.—París.

Godard, H.—Tumeur mélanique axillaire quinze ans après électrolyse d'un noevus de l'avantbras. (Hypothèse d'une substance mélanique ou prémélanique cancérigène).

Hoche, L.—Epithélioma papillaire mélanique de la couche pigmentée de la rétine (note préliminaire avec présentation des coupes)...

Montpelier, J.—Hépatome du foie chez la chat...

De nabias, S.—Curiethérapie du pharynx supérieur et des fosses nasales.

Roffo, A. H. et Aravena, L.—Epithélioma roentgenien cicatrisé par le radium. Auto observation du Dr. Lucio O. Aravena)...

Rubens-Duval, H.—La pratique de la protéinothérapie spécifique des tumeurs...

Welti, H. et Huguenin, R.—Accidents évolutifs d'un cancer thyroïdien suppuré...

REVISTAS DE HOSPITALES

THE MODERN HOSPITAL

Vol. 38—N° 3—Chicago.

Goldwater S.—Preparing the building program for a general hospital.

Eldrige H.—At home where young convalescents regain their health.

Mcnamara J.—Expensive bargains and how to avoid them.

Smith W.—The University of Pittsburgh's new teaching clinic.

Ellner J.—A hospital that is a credit to its Park Avenue surroundings.

Hinenburg M.—Rejuvenating the hospital—further studies in modernization.

Van nieuwerkerken M.—The Hague's new Deaconess hospital.

Perry M.—What an experienced dietitian means to a small hospital.

Neergaard C.—Quieting the utility room.

Vol 38. N° 4.—April, 1932.—Estados Unidos.

Fisher N.—Problems met by hospitals in compensation cases.

Lambert E.—The "Home away from Home" for sick children.

Clark L.—A composite picture of the modern hospital and its management.

Melincoff M.—Procedures that simplify accounting in the small sanitarium.

Barnes S.—A homelike hospital that serves four New York towns.

Williams J.—Autopsy.

Southmayd H.—How hospital and public health work may supplement each other.

Hoover F.—The small hospital executive as a publicity agent.

Tyler R.—Where diets are made both a science and an art.

Royster H.—What the staffs interest means to the hospital.

Tarumianz M.—How a state psychiatric clinic treats early mental cases.

Parks R.—Budgeting leisure time.

Dickinson R.—A visual staff review for a maternity unit.

Mchery K.—Planning and serving tow hundred thousand meals a week.

Van Nieugerken M.—Examining the finer structural details of a Dutch hospital.

Vol. 38.—Nº 5.—May, 1932.—Estados Unidos.

Buerki R.—Damgers in the use of compressed gas and how to avoid them.

Thompson E.—Now Indiana cares for its young convalescents.

Stewart B.—How an effective plan saves the hospital money.

Goldwater S.—A county hospital that will serve also as a health center.

Thurlow J.—Lessening the small hospitals accident losses.

Carmichael C.—Striving for the ideal in food service.

Myers J.—Makong smooth the way for the social worker.

Sexton L.—Why going to school is a pleasure for these nurses.

Crawford W.—Should hospitals lower their rates to meet present conditions?

Delano A.—Hospitalizing New Jerseys poor and the payment problem.

Eterkin J.—Innovations that feature a new hospital building.

Tobey J.—Assuring a supply of pure milk por patients and personnel.

Simons M.—Dental clinics in the United States.

Van horn E.—Safeguarding the health of student and graduate nurses.

ERRATAS EN EL No. 1o.

Omisiones y erratas en el trabajo del señor Daniel Borrero Durán:

...relaciones del conducto... Léase: relaciones *anatómicas* del...

Water. Léase: Vater.

...ostaculizar el escurrir... Léase: ...estorbar el escurrir...

...tapizado adelante por la trascavidad... Léase: ... tapizado adelante por la hoja posterior de la recámara de los epiplones...

Hymas van den Bergh. Léase: Heymanns van den Bergh.

Solución A. compuesta de ácido sulfanílico y ácido clorhídrico al 1:1.000. y solución B. o sea nitrato de soda al 1:100 consta de tres *faces*: si da la primera la ictericia es por retención, si la segunda y *tercera* es hemolítica.

Léase:

Solución A. compuesta de ácido sulfanílico 1 gr. y ácido clorhídrico 15 gr. en agua destilada 1,000 grs. y la solución B. o sea nitrato de soda al 0,5%, consta de tres *faces* si da la primera la ictericia *es* por retención, si la segunda y tercera, o la indirecta, es hemolítica.
