

BOLETIN BIBLIOGRAFICO

La Biblioteca de la Facultad de Medicina de Bogotá es una institución de carácter científico, destinada al servicio del Profesorado, de los alumnos de la Facultad, de los profesionales en general y del personal docente y alumnos de las escuelas dependientes de la Facultad de Medicina (Odontología y Farmacia).

Estará abierta todos los días no feriados y de vacaciones que establece el Reglamento de la Facultad, de 10 a 12 de la mañana, de 2½ a 6 de la tarde y de 8 a 10 de la noche. Los sábados por la tarde y noche no habrá servicio de Biblioteca.

Cuando se desee llevar un libro a domicilio, aparte de la papeleta de petición, se consignará en la Secretaría de la Facultad un depósito superior al monto del valor que tenga el libro en el mercado.

Los libros llevados a domicilio deben ser devueltos en un término máximo de diez días; pasados éstos se dispondrá del depósito para reponerlo, y el solicitante no tendrá derecho en lo sucesivo a hacer uso de este servicio de la Biblioteca.

Establécese en la Biblioteca el servicio de Canjes de las obras duplicadas. Dichos canjes deben llevar la aprobación del Director de la misma.

(Del Reglamento orgánico de la Biblioteca).

LIBROS LLEGADOS A LA BIBLIOTECA EN EL MES DE SEPTIEMBRE

Anthony, R.—Anthropologie. Hygiène Individuell. Education Physique.

Beylot, E. et Baubrimont, A.—Manuel Théorique et Pratique d'histologie...

Bertrand, I.—Techniques Histologiques de Neuropathologie...

Brault, A.—Le Glycogène dans le développement des tumeurs des tissus normaux et des êtres organisés.

Blanchod, F.—Consultations du Médecin-Praticien...

Capone, G.—Isterismo...

Condorelli, L.—Tecnica microchimica applicata alle ricerche biologiche e cliniche.

Craciun, C.—La culture des tissus en biologie expérimentale.

Darier, J. et Lion, G.—Atlas du Cancer.

Deschamps, N.—Electrocardiographie clinique.

Dalsage, J.—Technique des Prélèvements et des Biopsies dans la pratique clinique.

Damaye, H.—Questions Modernes de Neuro-Psychiatrie...

Fraipont, Ch.—L'Evolution cérébrale des primates et en particulier des hominiens...

Hahn, A.—La Bibliothèque de la Faculté de Médecine de Paris.

Hartmann, H.—Diagnostic des principaux Cancers.

Loth, E.—Anthropologie des Parties Molles.

Loefer, M.—Thérapeutique Médicale.—Foie, Glandes Endocrines et Nutrition.

Loeper, M.—Thérapeutique Médicale.—Aliments Médicaments...

Loeper, M.—Thérapeutique Médicale.—Maladies du tube digestif...

Loeper, M.—Thérapeutique Médicale.—Poumons et Tuberculose...

Mauz, F.—El Pronóstico de las Psicosis Endogenas...

Masquin, P.—Les Syndromes Confusionnels dans les Grands Traumatismes Crâniens...

Moniz, E.—Diagnostic des Tumeurs Cérébrales et épreuve de L'Encéphalographie Artérielle...

Meyer et Saidman.—Précis de Physiothérapie etc. de Petite Chirurgie Dermatologiques...

Piquet, J.—Les Abscès Cérébraux et Leur Traitement...

Ravaud, P.—Syphilis, Paludisme, Amibiase...

Roussy, G.—Travaux Pratiques D'Anatomie Pathologique...

Richard, G. A.—La Respiration dans l'exercice et le Sport. L'Education Respiratoire...

Rudaux, et Montlaur.—Dépistage de la Syphilis en Pratique Obstétricale et Prophylaxie de la Syphilis Héritaire...

Rouzaud, P.—Les Déviations Utérines et Leur Traitement par Hystéropexie en Fonction de la Grossesse. Une Technique Inédite D'Hystéro-Ligamentopexie...

Rousset, J.—Les Dyskératinisations Epithéliomateuses...

Sabrazes, J.—Les Tumeurs des Os.

Sobre-Casas, C.—Gynécologie Chirurgicale.

H. Truc, E. Valude, H. Frenkel.—Nouveaux Eléments D'Ophthalmologie.

V. Morax.—Précis D'Ophthalmologie.

Pr. G. H. Roger, Pr. Leon Binet.—Traité de Physiologie Normale et Pathologique. Tomos II, III, IV, VIII y IX.

Prof. Pío Marfori.—Tratado de Farmacología y Terapéutica. Cuarta edición.

Quartely cumulative index medicus. 11 de 1932.

MEDICINA GENERAL

REVISTA MEDICA DE COLOMBIA

Bogotá—Volumen II—Nº 22—Junio, 1932.

Reyes E. S.—Reumatismo crónico de origen endocrino.

Beregoff P.—El cáncer en relación con las secreciones internas.

Sección a cargo del doctor Agustín Arango.—Terapéutica razonada, Seroterapia y sus accidentes.

Ricaurte Medina E.—La Pielografía por eliminación de sustancias opacas. (Cont.)

ARCHIVOS DE MEDICINA, CIRUGIA Y ESPECIALIDADES

Tomo XXXV—Nº 34.—Año XII.—Nº 585—Agosto de 1932—Madrid.

S. A. Romínguez Borreguero.—Contribución al conocimiento de la esclerosis en placas.

P. Campuzano Cacho.—Anatomía e histología del cáncer del útero.

J. M. González Galvan.—Consideraciones sobre el tratamiento de las úlceras gastro duodenales, por las inyecciones de pepsina.

Tomo XXXV—Nº 35—Año XII—Nº 586—Madrid.

Urogoiti A.—Demostración del ultravirus en sangre por el hemocultivo de Lowenstein.

Campuzano Cacho P.—Hormonas genitales femeninas.

Domínguez Borreguero, S. A.—Contribución al conocimiento de la esclerosis en placas. (Cont.)

Tomo XXX—Nº 36—Año XII—Nº 587—Septiembre de 1932.—Madrid.

Gómez J. de Cisneros.—Sobre la anemia a bartonellas en ratas españolas.

Madivaneitia y Prendes y Pérez-Valdés.—Exploración funcional del hígado por la gluco-regulación.

Sanz de Frutos.—¿Debe drenarse la axila después de las amputaciones externas de la mama?

S. A. Domínguez Borreguero.—Contribución al conocimiento de la esclerosis en placas. (Cont.)

REVISTA MEDICA GERMANO-IBERO-AMERICANA

Año V.—Nº 8.—Agosto de 1932.—Leipzig.

Prof. Huebschmann.—La histogenia de la tuberculosis.

Herm. Walter.—Las relaciones de la osteocondritis disecante con la osteomielitis.

Año V.—Nº 9.—Septiembre de 1932.—Leipzig.

Dr. H. Braeuning.—La importancia de la tuberculosis pulmonar inadvertida y encubierta para el problema de la tuberculosis.

Prof. Max. Kappis.—Observaciones e investigaciones acerca de las alteraciones de la hemostasia en cirugía.

REVISTA DE MEDICINA VETERINARIA

Año IV—Junio y Julio de 1932.—Nos. 31 y 32.

Informe del Director de la Escuela al señor Ministro de Industrias.

La diarrea blanca bacilar en los pollitos.

Un método sencillo para la esterilización del agua.

REVISTA DE LA SOCIEDAD MEDICO-QUIRURGICA DEL ZULIA

Año VI.—Nº 8—Agosto de 1932.—Maracaibo.

Dr. Heberto Cuenca.—Sobre la importancia de la Atebrina.

Dr. C. Lepage.—Puñal enclavado en la mejilla.

Dr. M. A. Basalo.—¿Tétanos químicos?

Dr. L. García Maldonado.—Reactivación de la sífilis y del paludismo con el Neosalvarsán.

MEDICINA Y CIRUGIA

(*Organo de la Sociedad Médico-Quirúrgica Lombana Barreneche*)

Volumen I.—Nº 2—Bogotá—Agosto de 1932.

Murillo L. M.—Recolección y conservación de insectos.

Laverde Mercado L.—Una sorpresa de obstetricia.

Isaza Uribe E.—Hematemesis diabética.

Cortés Enciso C.—Reseña histórica de la Facultad de Medicina de Bogotá.

Dr. Pava C. M.—La Crisoterapia en la tuberculosis.

POLICLINICA

Vol. XV—Año XV—Fascículo III—Nº 165—Julio de 1932—Valencia.

Dr. Ricardo Llopis Llorente.—Contribución experimental al tratamiento de la intoxicación estrícnica por los derivados barbitúricos.

Dr. Rafael Climent Pardo.—El caso de la curandera Natalia.

Eugenio T. López-Trigo.—Un caso de parálisis incompleta del ciático popliteo externo por compresión determinada por una exostosis de crecimiento situada a nivel de la cabeza del peroné.

Eugenio T. López-Trigo.—Un caso de rotura de los dos tendones de la porción larga y corta del bíceps.

EL DIA MEDICO

Año V—Nº 3—Buenos Aires—Agosto de 1932.

Prof. José W. Tobías.—Diagnóstico radiológico de los tumores voluminosos primitivos de la pleura.

Prof. José Arce.—Tratamiento quirúrgico del bocio exoftálmico.

Prof. Alois Bachmann.—El rol de los antígenos parciales en la patogeneidad y virulencia de las enfermedades infecciosas.

Año V—Nº 4—Agosto de 1932—Buenos Aires.

Prof. Adolfo F. Landivar.—Profilaxis y tratamiento de las complicaciones pulmonares post-operatorias y post-traumáticas por las inhalaciones de anhídrido carbónico y oxígeno.

Dr. José J. Puente.—Prostitución.

Dr. Juan Gabastou.—Etiología del aborto.

Dr. M. León Kindberg.—Evolución general e incisiones terapéuticas del absceso pulmonar.

Dr. J. C. Bidart Malbran.—Tumor inflamatorio del ciego post apendicectomía.

LA CRONICA MEDICA

Año 49—Nº 828—Junio de 1932—Lima.

Dr. Carlos Herrera Martínez.—Morfología intersexual femeninoide y perderastía pasiva.

Dr. Emilio Beuzeville T.—La presión del líquido cefalo raquídeo y las modificaciones que produce la raquicentesis en el ritmo cardio-respiratorio.

Dr. Carlos A. Bambaren.—Doctrinas y realizaciones prácticas que conviene incorporar en el Perú el régimen de menores.

Dr. Angel Maldonado.—Hechos y conceptos sobre especialidades farmacéuticas.

Año 49—Nº 829—Julio de 1932—Lima.

Dr. Teodomiro E. Vargas.—La frenico-exeresis en el tratamiento de la tuberculosis pulmonar.

Dr. Edmundo Escobel.—Curación específica y rápida de algunas dolencias intestinales.

Dr. Emilio Beuzeville T.—La presión del líquido cefalo-raquídeo y las modificaciones que produce la raquicentesis en el ritmo cardio-respiratorio.

GACETA MEDICA DE CARACAS

Año XXXIX—Nº 8—1932—Caracas.

Dr. Pastor Oropeza.—Reumatismo blenorragico.

Prof. Dr. W. H. Hoffmann.—El tratamiento precoz de la lepra.

Dr. H. Pittier.—Clasificación natural de las plantas y especialmente de las familias más importantes de Venezuela.

REVISTA MEDICA DE MALAGA

Año X—Nº 94—Julio de 1932—Málaga.

Dr. J. Mancera Sánchez.—El metabolismo basal y su valor en la clínica.

ARCHIVES DES MALADIES DU COEUR DES VAISSEAUX ET DU SANG

Año 25—Nº 8—Agosto de 1932—París.

R. H. Mayor et H. R. Wahl.—Les rapports entre la tachycardie paroxystique et les lésions du myocarde.

P. Veil.—Quelques considérations thérapeutiques au sujet du signe de la tensión douloureuse.

G. Santucci.—Le télétransmetteur de Pende; ses applications á la télélauscultation et á l'enregistrement graphique des phénomènes acoustiques du coeur et des poumons á l'état normal et pathologique.

JOURNAL DE MEDECINE DE LYON

Nº 302—1932—París.

Bouchut, L. et Levrat, M.—La dégénérescence cancéreuse de l'ulcère d'estomac par blessure de guerre...

Rendu, R.—Réflexe masticato-sudoral localisé (vingt-quatre cas).

Schachter.—Des conditionnements matériels du fonctionnement cérébral.

Nº 303.—Agosto de 1932.

A. Cade et M. Milhaud.—Les entérorragies au cours de la bacillose intestinale.

J. Paviot et H. Jarricot.—A propos des viscéralgies: les dermalgies reflexes.

S. Bonnamour, Duplant et Magnard.—Mécanisme de l'invagination de l'adulte par les tumeurs bénignes de l'intestin.

Ch. Charin, P. Bernay et A. Chapuy.—Valeur diagnostique du chilmisme gastrique.

P. Werthimer et M. Milhaud.—Obstruction duodénale par calcul biliaire.

PARIS MEDICALE

22 Année—Nº 32—1932—Paris.

Peron, N.—La psychiatrie en 1932.

Vurpas et Corman, L.—Les formes graves des obsessions...

Guiraud, P.—Représentation et hallucination...

Baudouin, A. Largeau, R. et Busson, A.—Sur quelques accidents au cours du traitement de la paralysie générale par le stovarsol sodique...

Vie, J.—Contribution à l'étude du caractère schizoïde dans les antécédents des déments précoces...

Bret, T.—Un cas de personnalité alternante unique dans la vie et de conversion dite miraculeuse...

Peytel, A.—La responsabilité des médecins radiothérapeutes et la prescription...

Nº 33—1932—Paris.

Alexandresco-Dersca, Focsa, P. et Petresco, N.—Contribution à l'étude clinique des reins polykystiques...

Joly, M.—Action des rayons X sur la peau...

Danielopolu, D. et Dimitriu, C.—Influence de l'hypertension provoqués sur.

Año 22—Nº 34—Agosto de 1932—Paris.

V. Mandru.—Théorie de la sécrétion rénale. La physiologie des glandes surrénales et spécialement l'azotémie surrénale.

Paul, Chavigny.—La simulation.

Año 22—Nº 35—Agosto de 1932—Paris.

L. Menrad.—Deux abcès tuberculeux de la paroi abdominale antérieure traités par exérèse suivie de guérison.

H. Baruk, Bidermann et Albane.—Tuberculose et démence précoce. Réaction allergiques et encéphalite toxique. Recherches biologiques et expérimentales.

LA PRESSE MEDICALE

Nº 64—1932—Paris.

Leriche, R. et Stricker, P.—Place de la surrénalectomie dans le traitement conservateur des artérites juvéniles du type thrombo-angéite; à propos de 12 observations...

Landau, A. et Kaminer, S.—Sur le traitement des affections pulmonaires purulentes par des injections intraveineuses d'alcool.

Nº 65—1932—París.

Roch, Martin, E. et Sciclounoff.—Les injections intraveineuses quotidiennes massives de solution glucosée hypertonique chez les brightiques hypertendus...

Desplas, B., Launoy, L. et Chevilon, G.—La butyl méthymalonylurée comme narcotique préparatoire aux anesthésies générales par l'éthér...

Remlinger, P.—Les accidents paralytiques du traitement antirabique au cours de ces dernières années...

Nº 66—1932—París.

Moulonguet et Salomon J.—Rétrécissement inflammatoire du rectum, hipocratisme digital et rhumatisme infectieux...

Caulaert, Stahl et Hfstein.—Les vomissements dans les néphrites...

Voille et Wolff, R.—Influence des eaux minérales diurétiques sur le Ph urinaire...

ARCHIVES DES MALADIES DE L'APAREIL DIGESTIF ET DES MALADIES DE LA NUTRITION

Tomo XXII—Nº 7—Julio de 1932—París.

R. Gouffon et Sala-Roig.—Recherches de coprologie comparée.

J. Duriez.—La bactériothérapie lactique et le pouvoir fermentatif des selles. Recherches expérimentales

J. Ch. Roux.—Les résultats éloignés du traitement médico-chirurgical des ulcerations de l'estomac et du doudenun.

André Bergeret.—A propos du traitement des ulcères gastro-duodénaux.

M. Savignac.—A propos d'un case de fausse tumeur gastrique.

Carnot, Bergeret, Caroli.—Etude riadiologique de deux cas d'invagination intestinale chez l'adulte.

Carnot, Bergeret, Caroli.—Deux cas de hernies de l'hiatus diaphragmatique.

THE AMERICAN JOURNAL OF THE MEDICAL SCIENCES

Nº 725.—August 1932—Estados Unidos.

Zollinger R.—Brain tumors.

Sleeper F.—Endocrine therapy in the psychoses.

Reznikoff P.—White blood cell counts in convalescence from infectious diseases.

Buckus H.—Achlorhydria.

Mcguire J.—Transient complete bundle branch block.

Horine E.—Arteriolar studies in patients with hypertensive heart disease without hypertension.

Touroff A.—Combined tape measure and stethoscope tube.

Krumbhar K.—The changes produced in the blood picture by removal of the normal mammalian spleen.

Cantorow A.—The Van Den Bergh reaction and the bromsulphalein test in the estimation of hepatic functional impairment.

Touart M.—Clinical reaction to vaccines as guides in treatment.

Pelouze P.—The medical importance of focal infective prostatitis.

Blackman N.—“Asexualization” of the plasmodium in induced malaria.

MEDICAL CLINICS OF NORTH AMERICA

Vol. 16—Nº 1—July, 1932—Estados Unidos.

Strecker E.—Some psychological considerations in Schizophrenia.

Talley, J.—Can we prevent heart disease?

Kalteyer F.—Shoulder top pain as a diagnostic sign.

Wilson G.—Remarks on injury to the spinal cord.

Miller T.—The healing of gastric ulcer.

Rehfuss M.—“Chronic infection”.

Striud W.—The possible prevention of coronary occlusion.

Kerns R.—Problems in the regulation of the blood sugar level in the treatment of diabetes mellitus.

Fitzhigh F.—The occurrence of pernicious anemia in association with other anemizing disorders.

Gordon B.—The relation between chronic nontuberculous pulmonary disease and long standing upper respiratory tract infection.

Wohl M.—Masked hyperthyroidism.

Bank J.—Alkalosis and duodenal ulcer.

Wood F.—Further observations on the use of chest leads in the electrocardiographic study of coronary occlusion.

Drant P.—Epidermolysis bullosa.

Jones H.—A discussion of the classification and etiology of purpura hemorrhagica.

Griffith R.—Erythremia.

Griffith G.—A pronounced case of agranulocytosis with recovery.

Leebron J.—Obstetrical paralysis.

Stokes J.—Three fatal cases of infantile scurvy.

Read W.—Eight cases of congenital heart disease.

Duncan G.—Diet in the management of ascites.

Farley D.—The erythrocyte sedimentation test.

Richardson R.—Diabetic acidosis with negative reaction for diacetic acid in the urine.

Rose E.—Malignant hypertensive vascular diseases simulating hyperthyroidism.

Cooper D.—The differential diagnosis of chronic pulmonary disease.

Carey L.—Thyroid heart disease.

THE JOURNAL OF THE AMERICAN MEDICAL ASSOCIATION

Vol. 99.—Nº 1—July 2, 1932—Estados Unidos.

Black J.—Some pressing problems in allergy.

Thayer W.—Thoughts on medical education in the United States.

White J.—Painful aneurysms of the aortic arch.

Allen C.—Selective collapse of lung with phrenicotomy comparable to that of pneumothorax.

Garrison O.—Lipodystrophy.

Jacobs J.—The treatment of obstinate Chorea with Nirvanol.

Vol. 99.—Nº 2—July 9, 1932.

Royster H.—Surgical vision.

Sebrell W.—Pellagra.

Cromer S.—Mucin therapy.

Green J.—Inespt refraction.

Thomas R.—Effects of acetylsalicylic acid.

Selye H.—A condition simulating human scleroderma in rats.

Pereteson W.—Syphilis and tuberculosis.

Curtis A.—Hypophyseal Cachexia.

Vol. 99.—Nº 3—July 16, 1932.

Friendebwald H.—The progress of ophthalmology.

Mclester J.—The diet in Brights disease.

Doan C.—The neutropenic state.

Rackeman F.—Chronic severe asthma.

Wadsworth A.—Serum therapy.

Warren M.—Postoperative pulmonary complications.

Arbor A.—Spinal anesthesia.

Vol. 99.—Nº 5—July 30, 1932.

Levy R.—Therapeutics and medicine.

Bishop E.—Tuberculosis in Tennessee.

Dunham K.—Thoracoplasty in pulmonary tuberculosis.

Schick B.—Treatment of alimentary toxicosis.

Martin E.—Prolapse of the rectum.

Treadway W.—Drug addiction and measures for its prevention in the United States.

Thompson R.—Focal enlargement of the temporal bone as a sign of brain tumor.

Vol. 99—Nº 6—August 6, 1932.

Adair F.—The interrelationship of Mother and Fetus.

Jackson E.—Aberrations of eyes and lenses.

Boland F.—Results in the treatment of acute appendicitis.

Haas S.—Celiac disease.

Sweany H.—Severe bronchial asthma apparently due to fungus spores.

Moulton H.—Sarcoma of the choroid.

Vol. 99—Nº 7.—August 13, 1932—Estados Unidos.

Mackee C.—Physical therapy in dermatology.

Morrison S.—Relation between gastric and renal diseases.

Brown G.—Throm-angiitis obliterans.

Beach J.—Haverhill fever.

Meninger W.—Therapeutic methods in a psychiatric hospital.

Dean L.—Laboratory investigations as aids in Otolaryngologic diagnosis.

Peterman M.—Convulsions in childhood.

Grabt C.—Mortality from abscess of brain.

Barnett C.—The treatment of pernicious anemia with digested liver.

Walter A.—Botulism in North Dakota.

Vol. 99—Nº 8—August 20, 1932.

Warren J.—The crippled child versus the chronic sick of Massachusetts.

Young R.—Neurologic features of pernicious anemia.

Conner H.—Injection of liver extract in the treatment of pernicious anemia.

John H.—Hyperthyroidism showing carbohydrate metabolism disturbances.

Seydell E.—Olfactory disturbances.

Helwig F.—So called liver death.

Dinsmore R.—Hyperthyroidism in children.

Jones O.—Surgical treatment of progressive exophthalmos following thyroidectomy.

Ross J.—End results of surgery in exophthalmic goiter.

Hess A.—Milk irradiated by carbon arc lamp.

Vol. 99—Nº 9—August 27, 1932.

Ebaugh F.—The crisis in psychiatric education.

Whitney J.—Medical teaching in tuberculosis.

Brown S.—Current criticisms of psychiatry.

Moschowitz E.—A biologic concept of disease.

O. Hara D.—The clinical teaching of preventive medicine.

Boudreau F.—Relation of private medical practice to public health in Europe.

Schauffler G.—Effect of knee ches position and ostural exercises of postpartum retroversion.

ARCHIVES OF INTERNAL MEDICINE

Vol. 29—Nº 6—June 1932—Estados Unidos.

Danglade J.—Treatment of cardiovascular syphilis.

Cheney G.—A possible relationship of pancreatic insufficiency to Addison-Biermer anemia

Chasis H.—Thiocyanate therapy in hypertension.

Goodman L.—Cinchophen hepatitis.

Cohn B.—The absorption of compound solution of iodine from the gastro-intestinal tract.

Heimbeck J.—Immunity to tuberculosis.

Miller H.—The prolonged use of massive doses of urea in cardiac dropsy.

Brice A.—Tryptophanuria and its significance.

Cantaroe A.—Calcium studies.

Ruley C.—Cardiac output following artificial pneumothorax in man.

Nuzum F.—Pancreatic extract in the treatment of angina pectoris and intermittent claudication.

Wardlaw H.—Some factors determining the insensible perspiration of man.

Haden R.—Clinical significance of volume and hemoglobin content of the red blood cell.

Roberts W.—Primary cancer of the lung.

Lichtman S.—Streptococci in the blood in rheumatic fever, rheumatoid arthritis and other diseases based on a study of 5233 consecutive blood cultures.

Vol. 50—Nº 1—July 1932—Estados Unidos.

Bortz E.—Diffuse hemorrhage from the stomach.

Zerfas G.—Use of liver extract intravenously.

Wrchsler I.—Variations in the total blood lipid in alimentary lipemia.

Troenes E.—Influence on carbohydrate metabolism of experimentally induced hepatic changes.

Smith J.—Solar radiation in relation to endemic goiter.

Fowler W.—Effects of prolonged liver dietary in pernicious anemia.

Lisa J.—Myocardial infarction of gross fibrosis.

Stockton S.—Bismuth diuresis and the blood and urinary changes under clinical conditions.

Robertsg.—Experimental low colonic obstruction.

Joconson S.—Toxicity of mersalyl.

Vol. 50—Nº 2—August, 1932—Estados Unidos.

Smith H.—Pericarditis.

Epstein E.—Cholesterol of the blood plasma in hepatic and biliary diseases.

Balderston S.—Anemia associated with biliary fistula.

Peters J.—Carbohydrate metabolism in a case of hemochromatosis.

Ferris H.—Hemochromatosis and pupura.

Barron M.—Importance of hepatomegaly and splenomegaly in differential diagnosis.

Thoenes E.—Influence on carbohydrate metabolism of experimentally induced hepatic changes.

Janson J.—Treatment of lobal pneumonia with carbon dioxide and oxygen.

Reimann H.—Quinine derivatives and specific immune serum in the treatment of pneumococcus infection.

Hyman A.—Resuscitation of the stopped heart by intracardial therapy.

Brandman H.—Fibromyoma of the uterus.

Comroe B.—Hyperparathyroidism.

Bloocfield A.—Relations between primary hypochromic anemia and chlorosis.

Fetter D.—Relation of pain of peptic ulcer to gastric motility and acidity.

THE LANCET

Nº 5680—July 9, 1932—Inglaterra.

Graves T.—Non specific therapy in mental disorder.

Tallerman K.—Prognosis in acute nephritis in Childhood.

Auld A.—New peptone treatment in Asthma and other allergies.

Bourne G.—Lateral thoracic jerk.

Hill E.—High spinal anesthesia.

Nº 6681—July 16, 1932.

Castle W.—The extrinsic factor in pernicious and related anemias.

Graves T.—Non specific therapy in mental disorder.

Canny E.—An alternative to prostatectomy.

Curran D.—The use of Nembutal in Psychiatry.

Nº 5682—July 23, 1932.

Himsworth K.—Glucose in the treatment of diabetic intoxication.

Negus V.—The value of endoscopic methods in the upper air passages.

Cramer W.—Experimental production of kidney lesions by diet.

Treves H.—Some ray observations in varicose disease of the leg.

O. Brien R.—Immunization with potent unconcentrated diphtheria toxoid.

Russell B.—A case of Addisons disease.

Claye P.—Anesthesia and analgesia.

5683—July 30, 1932.

Dawson L.—One hundred years and after.

Thojson A.—The study of intermittent headache.

Harris L.—The chemical identification of vitamin C.

Mcowan P.—Sulphur therapy in the psychoses.

Nº 5684—August 6, 1932.

Horner N.—Medical journalism in the British Empire.

Davies H.—Lung collapse therapy.

Byrom F.—Péndymal cyst of the third ventricle associated with diabetes mellitus.

Marrian G.—Observations on the constitution of the Oestrus producing hormone.

Rendall M.—Diathermia in obstinate constipation.

Nº 5685—August 13, 1932.

Chick H.—The relation of ultraviolet light nutrition.

Wilson H.—Advances in the application of skeletal traction.

Cohen H.—Treatment of narcolepsy with ephedrine.

Bamford C.—Treatment of mental disorders by Pyrexia produced by diathermia.

Nº 5686—August 20, 1932—Inglaterra.

Chick H.—The relation of ultraviolet light to nutrition.

Harris N.—Treatment of general paralysis of the insane by malaria and sulphur.

Pickering J.—The role of tissue juices in thrombosis.

Jones T.—The connexion between cardiac "Nodes".

Cryiax E.—Primary mal-rotations in the lumbar portion of the vertebral column.

BULLETIN OF THE SCHOOL OF MEDICINE.

University of Maryland.

Rosenthal M.—The gonococcus in de matology.

Winslow R.—Philip Syng Physick.

CIRUGIA

THE AMERICAN JOURNAL OF SURGERY

Vol. 17—Nº 2.—August, 1932—Estados Unidos.

Kessler E.—Gonorrheal infection of the kidney pelvis.

Bubis J.—Puerperal gynecology.

Mensing H.—Intestinal obstruction.

Babcock W.—Routine method of artificial respiration for the surgical clinic.

Behan R.—Calcium treatment of pain in cancer.

Peterson A.—Vesicovaginal fistulas treated by electrocoagulation.

Flynn C.—Retroperitoneal approach in subphrenic abscess.

Moore G.—Simplified type of Roentgen Pelvimeter.

Baumgardner L.—Present status of mangement of carcinoma of the breast.

THE BRITISH JOURNAL OF SURGERY

Vol. 20—Nº 77—July, 1932—Inglaterra.

Browne D.—The operation for cleft palate.

Grey C.—A gian gall-stone impacted in the colon and causing and causing acute obstruction.

Dawson W.—The earliest surgical treatise.

Burman C.—A case of transplantation of the right ureter into the cecum and of the left in the sigmoid five years afterwards.

White J.—Leucoplakia in the urinary tract.

Keynes G.—Prevascular femoral hernia.

Martin C.—A note on the movements of the shoulder joint.

Stammers R.—Some experiences with sympathectic ganglionectomy.

Gilmour J.—Acute perforated peptic ulcer.

Rutherford R.—Carcinoma of the cecum.

Knaggs R.—A report on the Strageways colletion of rheumatid joints in the museum of the Royal College of Surgerons.

Green V.—Implantation of the ureters for inoperable vesico-ve-ginal fistula and ectopia vesical.

Foulds G.—Resection of the presacral nerve in urological cases.

Rudolf C.—Eight lettres of Joseph (Lord) Lister to William Sharpey.

DERMATOLOGIA Y SIFILOGRAFIA

ARCHIVES OF DERMATOLOGY AND SYPHILOLOGY

Vol. 26—Nº 1.—July, 1932.—Estados Unidos.

Strickler A.—The blood sugar metabolism in certain dermatoses.

Cornbleet T.—Capillary permeability in disorders of the skin.

Torrey J.—Bacteriology of the intestine and blood in psoriasis.

Whellon H.—Persistent infection of the tongue due to *Monilia* *Bronchialis*.

Fox C.—Exfoliative dermatitis from Butesin Picrate ointment.

Grossma H.—The treatment for lichen planus with intramuscular injections of bismuth salicylate.

Rosen I.—Cholesterol and lecithin studies of skin diseases.

Ayres S.—Generalized telangiectasia and sinus infection.

Diasio F.—Keratosis follicularis sine dyskeratosis.

Broers J.—Lupus vulgaris.

Moon V.—Erythema nodosum.

Andrews G.—Treatment of vascular nevi by injections of sclerosing solutions.

Lurie S.—Verrucae vulgares.

Farrell J.—Cutaneous melanomas.

Novy F.—Phenolphthalein eruption.

Culver G.—Granuloma pyogenicum.

Vol. 26—Nº 2—August 1932.

Grawford S.—Juvenile acrodynia.

Zakon S.—Lymphogranulomatosis inguinalis or Durand-Nicolas-Favre disease.

Traub E.—Dermatofibroma.

Montgomery H.—Xeroderma pigmentosum.

Lisa J.—Hodgkins disease of the skin.

Raiziss G.—Neurotropism of *spirochaeta pallida*.

Davenport H.—Staining of *spirochaeta pallida* in smears by alcoholic silver nitrate.

HIGIENE Y SALUD PUBLICA

REVISTA Y BOLETIN DE INFORMACION DE LA LIGA DE SOCIEDADES DE LA CRUZ ROJA

Volumen XIII—Nº 8—Agosto de 1932—París.

Miss I. Malinde Havey—La organización de un servicio de enfermeras visitadoras de la Cruz Roja en el campo.

Doctor Jaccard R.—La Higiene dental del adulto.

BOLETIN DE LA OFICINA SANITARIA PANAMERICANA

Año 11—Nº 9—Septiembre de 1932.

C. del J. F. Siler.—La sanidad en la Zona del Canal de Panamá.

Tomo XVI—Nº 8—Agosto de 1932—Paris

Rene Gilbert.—Les méthodes radiologiques d'exploration du foie dans la lithiase et l'ictère lithiasique.

Carl Sandstrom.—De la colécystographie par la voie buccale et de sa valeur.

Heinz Langer.—L'effet des Rayons X sur le système nerveux végétatif.

Louis Delherm et Morel Kahn.—La chirurgie doit-elle éliminer la chimio-fisiothérapie dans le traitement de la maladie de Graves-Basedow?

THE AMERICAN JOURNAL OF ROENTGENOLOGY AND RADIUM THERAPY

Vol. 27—Nº 6—June, 1932—Estados Unidos

Evans W.—Abnormalities of the vertebral body.

Volumen I - N.º 6 - Noviembre 1932

Wagoner G.—Intrinsic circulation of the vertebral body.

Doub H.—The Roentgen signs of tuberculosis of the vertebral body.

Gershin J.—The colon as studied by the double contrast enema.

Bloch R.—The viscosity of lipiodol in bronchography.

Lewis R.—A Roentgenographic study of glass and its visibility as a foreign body.

Manges W.—Primary carcinoma of the lung.

Samuel E.—The therapeutic application of the Roentgen ray in angina pectoris.

Behney C.—An evaluation of high voltage Roentgen rays in the therapy of carcinoma of the cervix.

Taylor L.—International comparison of Roentgen ray units.

Henshaw P.—Studies of the effect of Roentgen rays on the time of the first cleavage in some marine invertebrate eggs.

Lochry R.—Lipiodol injection of uterine cavity in hydatidiform mole.

Vol. 28—Nº 1—July, 1932.

Kornblum K.—Some observations on the use of intravenous urography.

Campbell M.—Urography in urinary tract anomalies in infants and children.

Wesson M.—Influence of ureteral stones on intravenous urograms.

Waring T.—An ascending foreign body in the kidney pelvis.

Sproull J.—Status and clinical application of Roentgenology of the thoracic aorta.

Bishop P.—Fractures and epiphyseal separation fractures of the ankle.

Habbe E.—Diffuse gastroduodenal polyposis “en nappe”.

Glasser O.—First observations on the physiological effects of Roentgen rays on the human skin.

Thorsness E.—The effects of Roentgen rays on the human skin.

Carty J.—Some experiences with high energy Roentgenography.

Rypins E.—The Roentgen diagnosis of fetus papyraceus in utero.

Vol 28—Nº 2—August, 1932—Estados Unidos

Kirklin B.—Roentgenologic manifestations of giant cell tumor.

Parry L.—The treatment of giant cell bone tumors by Roentgen irradiation.

Peurce C.—Giant cell bone tumor.

Dyke C.—Osteoporosis circumscripta of the skull as a form of Osteitis deformans.

Grier G.—The advantages of Roentgenoscopic control in Roentgenography of the stomach.

Geyman M.—Evaluation of compression technique in the Roentgen demonstration of duodenal lesions.

Meland O.—Experiences in interstitial irradiation of carcinoma of the breast.

Teperson I.—Treatment of carcinoma of the esophagus with Radon implants.

Quimby E.—The change in quality of Roentgen rays on passing through tissue.

Taft R.—Concerning the visibility of Roentgen rays.

UROLOGIA

JOURNAL D'UROLOGIE

Tome: XXXIV—Nº 1—1932—París.

Bolognesi, G. et Redi, R.—Sur les épididymites subaigües et chroniques dites “espécifiques”.

Jehiel, B.—Contribution á l'étude expérimentale, radiologique et clinique de l'urographie intraveineuse. Etude critique.

THE JOURNAL OF UROLOGY

Vol. 28—Nº 2—August, 1932—Estados Unidos

Randall A.—Presidential address.

Mathe C.—The diagnosis and present day treatment of ureteral stone.

Muschat M.—Massive renal hemorrhage due to regenerative hyperplasia of the collecting tubules of the papillae of the kidney.

Hyman A.—Medical and surgical aspects of hematogenous infections in urology.

Hand J.—Carcinoma of the kidney.

Pierson I.—Unilateral fused kidney.

Wehrbrin H.—Tissue reaction to antogonorrheal drugs.

Houston W.—The hyalinization of antogonorrheal drugs.

Houston W.—The hyalinization of hydrocele sacs.

Kimbrough O.—Removal of hairpin from the bladder of a four year old child with an improvised instrument.

ANATOMIA PATOLOGICA

THE AMERICAN JOURNAL OF PATHOLOGY

Vol. 8—Nº 4—July, 1932—Estados Unidos

Masson P.—Experimental and spontaneous Schwannomas.

King E.—The origin of the epithelium-lined blood cysts of the ovary from the Graffian follicle and its derivatives.

Hansmaan G.—Melitenisis meningo-encephalitis.

Perla D.—An instance of Adamantinoma of the jaw with metastases to the right lung.

Torres C.—Transient pachymenia of the intima of the aorta with reference to juvenile arterioesclerosis.

FISIOLOGIA

THE AMERICAN JOURNAL OF PHYSIOLOGY

Vol. CI—Nº 3—August, 1932—Estados Unidos

Wells H.—Some criteria of accuracy for the measurement of the osmotic pressure of colloids in biological fluids.

Wells H.—The concentration and osmotic pressure of the proteins in blood serum and in lymph from the lacteals of dogs.

Wells H.—The passage of materials through the intestinal wall.

Nahum L.—The respiratory quotient of the brain.

Orent E.—Studies on magnesium deficiency in animals.

Major S.—Glycogenolytic effect of epinehrine on skeletal muscle.

Haldi J.—Inhibition of lactic acid formation in brain and kidney tissue produced by intravenous injection of sodium monoiodoacetate.

Clark J.—A method for measuring electricity in vivo and results obtained on the eyeball at different intraocular pressures.

Freidman M.—The production of functional corpora lutea by the direct intrafollicular injection of extracts on pregnancy urine.

Ellis L.—Circulatory adjustments to moderate exercise in normal individuals.

Mitchell H.—Factors influencing anemia development in young rats.

Templeton R.—Studies in the motor activity of the large intestine.

Suzman M.—An attempt to produce spinal cord degeneration in dogs fed a high cereal diet deficient in vitamin A.

Jares J.—Studies on induction of ovulation and the inhibitory influence of Corpora Lutea on ovulation in the rabbit.

Erlanger J.—On the effects of polarization of nerve fibers by extrinsic action potentials.

Lloyd R.—The relative absorption rates of dextrose and levulose.

Lloyd R.—Is levulose converted to dextrose in the process of absorption from the intestine?

QUIMICA

REVISTA DEL CENTRO ESTUDIANTES DE FARMACIA Y BIOQUIMICA

Año XXI—Nº 4-5—Abril, Mayo, 1932—Buenos Aires.

Profesor Celsi S. A.—Guillermo Ostwald y la Química Analítica.

Doctor Floriani L.—Proteínas vegetales. (Continuación).

Doctor Rusquellas F. C.—Higiene de los ambientes confinados.
(Continuación).

Doctor Sánchez J. A.—Estudio químico funcional de la efedrina.

Año XXI—Nº 1—Junio de 1932.—Buenos Aires.

Dr. A. D. Hoimberg y el Prof Dr. Frank L. Soler.—Algunas anotaciones sobre suprarrenales.

Laurio Gómez.—Un nuevo método de cultivo diferencial para los bacilos tíficos y para-tíficos.

Dr. Enrique Bertani.—Notas del laboratorio. Aplicación de los complejos molibdénicos y wolfrámicos en la determinación cuantitativa de ciertos glúcósidos.

BULLETIN DE LA SOCIETE DE CHIMIE BIOLOGIQUE

Tome: XIV—Nº 6—1932—París.

Nieloux, M.—Recherches sur l'alcool ethllique. III. Combustion de l'alcool chez un homéotherme (Souris) placé ou point de neutralité thermique...

Paszaja, S.—Sur le microdosage du chlore plasmatique et globulaire dans le sang humain...

Klinc, L.—Caracterisation d'acétone en présence des aldéhydes (formal-déhyde, aldehyde propionique)...

Tixier, G.—Recherches expérimentales sur la toxicité de l'ergostérol irradié...

Terroine, E., Gaija, Al et Bayle.—Formation de la créatine et des corps purique au cours de la dégradation des matières protéiques exogènes...

Gerard, P. et Welti.—Le metabolisme des graisses au course de la fièvre jaune expérimentale chez les signes...

THE JOURNAL OF BIOLOGICAL CHEMISTRY

Vol. XCV—Nº 2—March, 1932—Estados Unidos.

Bing F.—Purification of benzidine and an improved reagent for estimating hemoglobin in blood.

Nicolet B.—The mechanism of sulfur lability in cysteine and its derivatives.

Sinclair R.—The metabolism of proslipids.

Degering E.—Catalytic oxidation of the carbohydrates and related compounds by oxygen in the presence of iron pyrophosphates.

Dann M.—Glycogenesis from glucose administered to the fasting dog.

Kocher R.—The effect of urea ingestion on the nitrogen partition of the urina at endogenous nitrogen level.

Rymer M.—Studies on the calcium content of human blood corpuscles.

Bergrenn R.—The phosphorus content of casein.

Bergrenn R.—The application of the Fiske-Subbaro colorimetric method to the determination of phosphorus in casein.

Greenstein G.—Studies of the peptides of trivalent amino acids.

Glick D.—Relationships between the structure of organic compounds and their inhabiting effect upon liver esterase.

Dyer E.—A new color test for cysteine.

Silberman A.—The tyrosine content of cocoons of various species.

Wolf W.—Anserine in mammalian skeletal muscle.

Pikens M.—The composition of gall stones and their solubility in dog bile.

Van Slyke D.—Manometric analysis of gas mixtures.

Sendory J.—Manometric analysis of gas mixtures.

Morgan J.—A method for the micro gravimetric determination of silica in tissue.

Morgulis S.—Studies on blood glycolysis.

Bloor R.—Diet and the blood lipids.

Navez A.—Starch hydrolysis as affected by light.

Kuttner K.—Micro colorimetric studies.

De Beer E.—The inorganic composition of the parotid saliva of the dog and its relation to the composition of the serum.

Supplee E.—Irradiated milk.

Vol. XCVI—Nº 1—April, 1932—Estados Unidos.

Orten J.—A study of certain metals in the prevention of nutritional anemia in the rat.

Orten J.—Polyvthemia in the rat on a milk-iron-copper diet supplemented by cobalt.

Schelling V.—A study of the blood glutathione.

Fuel H.—Studies on ketosis.

Smith J.—The hydrogenation of carotenes obtained from different sources, of dihydrocarotene, and of lycopin.

Falk G.—Directive influences in biological systems.

Quick A.—The site of the synthesis of hippuric acid and nenyloceturic acid in the dog.

Quick A.—The relationship between chemical structure and physiological response.

Sinclair R.—The metabolism of the phospholids.

Block.—The antinuritic vitamin.

Webster D.—Mucoprotein as a normal constituent of the gastric juice.

Evans H.—Vital need of the body for certain unsaturated fatty acids.

Evans H.—The sparing action of fat on vitamin B.

Bills C.—Crystalline vitamin D.

Shelling D.—Calcium and phosphorus studies.

Smith R.—Diffusible and non-diffusible blood serum calcium followings intravenous injections of calcium salts.

Cori G.—Carbohydrate changes during anaerobiosis of mammalian muscle.

Sunderman W.—The osmotic behaviour of water of blood serum.

Vol. XCVI—No 2—May, 1932—Estados Unidos.

Shinohara S.—Oxidation of cystine by iodine in aqueous medium.

Barron E.—The effect of cyanide upon the catalytic action of dyes on cellular oxygen consumption.

Beard H.—The antirachitic activation of ergosterol in the absence of oxygen.

Reed L.—Factors influencing the distribution and character of adipose tissue in therat.

Bernheim F.—The oxidation of proline and oxyproline by liver.

Bernheim F.—The action of colloidal sulfur on liver oxidations.

Jacobs W.—The sugar of sarmentocymarin.

Jacobs W.—The allocation of the lactone group of strophantidin and related aglucones.

Puckett H.—The relation of glycogen to water storage in the liver.

Macay J.—Reply to the communications of H. Puckett.

Monahagan B.—The effects of carotene and of vitamin A on the oxidation of linoleic acid.

Long C.—The alleged increase in plasma fats after the injection of epinephrine.

Richards O.—The stimulation of yeast growth by thallium, a "bios" impurity of asparagine.

Greenberg D.—The determination of magnesium in blood with 8-hydroxyquinoline.

Everett M.—The nature of the sugar of normal urine.

Samdrerg M.—Note on myrosin.

Levene P.—Intestinal nucleotidase and polynucleotidase.

Halliday N.—Further evidence for the existence of a third vitamin B growth factor for the rat, probably vitamin B₄.

Turner A.—The validity of determinations of the colloid osmotic pressure of serum.

Greenstein J.—The titration constants of alfa, beta, diaminopropionic acid and their relation to the constants of various isomers.

Du Vigneaud V.—The recemization of acetyl-tryptophane.

Kruse H.—Studies on magnesium deficiency in animals.

Josephs H.—Studies on iron metabolism and the influence of copper.

Vol. XCVII—Nº 1—July 1932—Estados Unidos.

Burr G.—On the fatty acids essential in nutrition.

Kerr S.—The effect of insulin on the phosphorous compounds of muscle.

Bruger M.—The diurnal variations of the cholesterol content of the blood.

Sandberg M.—On the influence of ethyl isothiocyanate, ethyl thiocyanate, and allyl isothiocyanate on sulfur metabolism in rabbits.

Anslow G.—The influence of substituent groups on the visible and ultra violet absorption spectra of amino acids and related substances.

Cool R.—Determination of small amounts of ethyl iodide.

Skinner C.—Production of vitamin A by a species of *Corynebacterium*.

Jacobs W.—Strophanthin.

Suplee G.—Irradiated milk.

Elvehjem E.—Studies in vitamin A avitaminosis in the chick.

Kline O.—Carotene and xanthophyll as sources of vitamin A for the growing chick.

Jensen H.—Studies on crystalline insulin.

Bengis R.—The chemistry of the coffee bean.

Keil H.—The effect of oral administration of amino acids and intraperitoneal injection of various elements and hydrochloric acid on regeneration of hemoglobin.

Heller V.—Phosphorus distribution in chicken blood as affected by diet.

Sure B.—The specific effect of vitamin B₆ of growth as evidenced by the use of vitamin B concentrates.

Follin O.—The determination of ammonia in blood and other biological fluids.

Babinowitch R.—The renal threshold of bilirubin.

Pett L.—The formation of methylglyoxal by *Clostridium acetobutylicum*.

Brown J.—Further observations on the nature of the highly unsa-

turated fatty acids of beef brains.

Collins D.—The freezing points of serum and corpuscles.

Cons C.—Iron retention by women during pregnancy.

Skinner J.—Design and use of a glass cage in anemia studies.

Clarke H.—The action of sulfite upon cystine.

Steenbock H.—The reaction of the chicken to irradiated ergosterol and irradiated yeasts as contrasted with the natural vitamin D of fish liver oils.

Csonka F.—Studies of glutelins.

Guzmán E.—The rate of autoxidation of oxidation-reduction systems and its relation to their free energy.

MEDICINA EXPERIMENTAL

ARCHIVES INTERNATIONALES DE MEDECINE EXPERIMENTALE

Vol. VII—Fasc. 3—Agosto de 1932—Belgica.

J. J. Snoeck.—Recherches sur la Glucosurie et la Lactosurie Gravidiques.

THE JOURNAL OF EXPERIMENTAL MEDICINE

Vol. 56—Nº 1—July, 1932—Estados Unidos.

Riegel C.—Studies on gall bladder function.

Felton L.—Studies on virulence.

Felton L.—Cellular reactions in the meninges of rabbits to tuberculo-lipoid, protein and polysaccharide, compared with the effect of tubercle bacilli.

Smith J.—Bodily changes and development of pulmonary resistance in rats living under compressed air conditions.

Murphy J.—Properties of the causative agent of a chicken tumor.

Pinkerton H.—Typhus fever.

Pinkerton H.—Spotted fever.

Vol. 56—Nº 2—August, 1932.

Menkin V.—Studies on inflammation.

Smithburn K.—The effect of lymphocytosis induced with embryonic extract on the course of experimental tuberculosis in rats.

Thomas S.—The diphasic nature of tuberculosis in rats after intravenous inoculation with bovine tubercle bacilli.

Burn C.—The role of hypersensitivity in the production of experimental meningitis.

Hudack S.—The permeability of the wall of the lymphatic capillary.

Mcmaster P.—Induced alterations in the permeability of lymphatic capillary.

Mackey T.—The degree of compensatory renal hypertrophy following unilateral nephrectomy.

Sabin F.—The production of osteogenic sarcomata and the effects on lymph nodes and bone marrow of intravenous injections of radium chloride and mesothorium in rabbits.

Shwartzman G.—Further studies on the nature of the phenomenon of local skin reactivity to bacterial filtrates.

THE BRITISH JOURNAL OF EXPERIMENTAL PATHOLOGY

Vol. 13—Nº 4—August, 1932—Inglaterra.

Chamberlain E.—Cholesterol variations in experimental anemias.

Robinson G.—The growth of *B. pyocyaneus* in synthetic media.

Goulston D.—The action of Beta radiations from radium on the chorio-allantoic membrane of the chick embryo.

Florey C.—Mucous changes in the epithelial cells of the rat vagina during the early stages of pregnancy.

Mackie T.—The influence of nutrition on susceptibility to a bacterial toxin.

Brown H.—Further observations on bacterial cataphoresis.

Broom J.—Migration rate and virulence of *C. diphtheriae*.

Morgan W.—The estimation of small amounts of a specific bacterial polysaccharide in the induction of anaphylaxis.

Florey H.—Experimental inflammation of the colon.

Dungel N.—Schick tests in Iceland.

Gohar M.—A serological study of *V. cholerae* and related vibrios.

Petrie G.—A specific precipitin reaction associated with the growth on Agar plates of *Meningococcus*, *pneumococcus* and *B. dysenteriae*.

Marrack J.—Quantitative aspects of immunity reactions.

THE JOURNAL OF LABORATORY AND CLINICAL MEDICINE

Vol. 17—Nº 9—June, 1932—Estados Unidos.

Haden R.—The technic of a blood examination.

Kaskins H.—The value of accurately determined color, volume and saturation indexes in anemias.

Doan C.—Current views on the origin and maturation of the cells of the blood.

Wintrobe W.—The size of hemoglobin content of the erythrocyte.

Diggs L.—The sickle cell phenomenon.

Tompkins E.—Clinical applications of supravital staining.

Mills C.—Hemophilia.

Love J.—Variations in the diameter of the granulocytes.

Vol. 17—Nº 10—Juli, 1932.

- Custer R.*—Studies on the structure and function of bone marrow.
Ahlfeldt A.—A neutrophilic graph.
Hugh T.—The age of the leucocyte in relation to infection.
Winfield G.—A study of the white and differential counts in six unselected cases of inoculation malaria.
Kracke R.—A review of granulocytopenia.
Arbor A.—Present status of the study and treatment of leucemia.
Sturgis G.—Treatment of the anemias.
Connery J.—Studies on patients with pernicious anemia treated with massive doses of liver extract.
Haden R.—Reactions to blood transfusion.
Arbor A.—Special features of the blood in infancy and childhood.
Giffin H.—Diagnostic features of the blood count and of the morphology of the blood in diseases associated with splenomegaly.
McCullagh M.—The blood picture in hyperthyroidism and in hypothyroidism.

Vol. 17—Nº 11—August, 1932—Estados Unidos.

- Morrison M.*—An analysis of the blood picture in 100 cases of malignancy.
Barrow W.—The acid response of the stomach to the test meals of protein, fat and carbohydrate.
Miller H.—The leucocytes in surgical conditions.
Waddel J.—The action of avertin on voluntary and nonvoluntary muscle.
Sievers E.—The competency of the Rehfuess tube as a complete evacuator.
Pierce L.—Determination of pH values of urine.

BACTERIOLOGIA

ANNALES DE L'INSTITUT PASTEUR

Tome: XLIX—Nº 2—1932—Paris.

- Gratia, A. et Linz, R.*—Les phénomènes de Sanarelli et de Shwartzman ou l'allergie hémorragique...
Ninni, C.—Sur quelques propriétés chimiques, microscopiques et sérologiques des filtrats de voiles de bacilles de Koch et de la féoule sur le milieu de Sauton...
Lominsky, I.—Influence de la lécithine et de la cholestérine (en concentration correspondant à celle de ces substances dans la bile de boeuf) sur la biologie du bacille tuberculeux humain...

Davesne, J. et Haber P.—L'influence de l'hyperthermie, de l'acidose et de l'alcalose sur la production des agglutinines...

Thomas, A.—Contribution a l'étude des réactions de quelques invertébrés á l'inoculation de substance á propriétés cancérigènes et du bacterium tumefaciens, Sm. et Town...

PARASITOLOGIA Y ENTOMOLOGIA

THE REVIEW OF APPLIED ENTOMOLOGY

Vol. 20. Ser. B. Part 1. January, 1932. Inglaterra.

Vol. 20. Ser. B. Part 2. February, 1932.

Vol. 20. Ser. B. Part 3. March, 1932.

Vol. 20. Ser. B. Part 4. April, 1932.

Vol. 20. Ser. B. Title page and Index, april, 1932.

Vol. 20. Ser. B. part 5. May, 1932.

Vol. 20. Ser. B. Part 6. June, 1932.

Vol. 20. Ser. B. Part. 7. July, 1932.

TERAPEUTICA

REVISTA DE INFORMACION TERAPEUTICA

Año XIV—Nº 10—Octubre de 1932—Alemania.

Plesh.—Anamnesia (conclusión).

H. del Campo.—La importancia del Salvarsan y derivados en la lucha contra las enfermedades venéreas. (Continuación).

A. Bratusch-Marrain.—Raquitismo y tetanismo.

J. Zschucke.—Ensayos terapéuticos con un tratamiento simultáneo por el tetracloruro de carbono (*Ceretina*), y el Ascaridol *Bayer*.

W. Hedrich.—De la quimioterapia antiinfecciosa por inyecciones.

H. Brauns.—El tratado de la disentería amibiana.

Patterson.—Sobre el tratamiento del tétanos.

BULLETIN GENERALE DE THERAPEUTIQUE

Tomo 183—Nº 6—Junio de 1932—París.

H. Gougerot.—Les traitements des épithéliomas cutanés.

D. Santenaise.—Isolement et préparation de la vagotonine.

THE JOURNAL OF PHARMACOLOGY AND EXPERIMENTAL THERAPEUTICS

Vol. XLV—Nº 4—August, 1932—Estados Unidos.

Cheney R.—Relation of caffeine dosage to body weight in striated muscle response.

Woods G.—The effect of small amounts of ergotamine on the circulatory response to epinephrine.

Gillespie M.—The effect of calcium on the response of isolated bronchi to histamine.

Gurchot C.—Physical and chemical properties of sodium iodobismuthite, a soluble compound of electropositive bismuth for use in the treatment of syphilis.

Johnson C.—Activity of iodobismuth in experimental rabbit syphilis.

Nash T.—Is blood protein amide nitrogen a source of urinary ammonia?

REVISTAS DE HOSPITALES

THE MODERN HOSPITAL

Vol. 39—Nº 3—August, 1932—Estados Unidos.

Bacon A.—Doing away with the open window in the hospital.

Bishop H.—Eliminating the dangers of ethylene.

Foster G.—Making errors a minus quantity on laboratory charts.

Babcock W.—Detroit's new hospital and it for patients of modest means.

Fisher J.—How doctors can help in reducing hospital expenses.

Hill W.—The story of a cottage hospital that grew with its community.

Dunning R.—A manual of rules and regulations for an out patient department.

Olsen E.—Hospital week in Detroit.

Brown S.—Mental hygiene.

Taylor G.—The coffee shop as a dietary department side line.

Pecord O.—Training hospital executives.

Senam F.—The hospital hostess.

Rottman M.—Should a hospital close its nursing school?

Bluestone E.—Let us consider the nursing situation.

Vol. 39—Nº 3—September, 1932.

Bluestone E.—Appraising a hospital tradition in the light of social needs.

Davis M.—Three negro hospitals.

Rogers R.—An experiment in paying hospital bills on an insurance basis.

Hamilton S.—Present trends in the building of mental hospitals.

List W.—An accounting system that should appeal to all hospitals.
